

With over 30 years of experience, Global Premiums & Gifts (GPNG in short) helps many well-known and respected companies to provide solutions to their corporate gifting.

Being exclusive to renown brands such as Xoopar Design, LuggageMate, HomingPIN and more, exposes customers to a luxurious range of the world's latest gadgets and novelties.

This is made possible with close and tight partnerships with direct factories all over the world that contribute first-hand information and latest industry news about the trending items. In addition, every team member in the company is dedicated to a goal: bringing brands to life and making customers the first in Singapore, and possibly Asia to give their selected gift away. This single devotion pushes the company to actively imagine, design, source and create innovative and successful gifts.

In 2018, GPNG is launching items from some of the greatest brands in the world – Xoopar Design IT gadgets, LuggageMate 3 in 1 Luggage Weighing Scale and Lock, Chipolo Bluetooth Trackers and Sprout Pencils. From ordinary stationeries to eco friendly and sustainable Sprout Pencils, traditional promotional IT gadgets to stylish and sleek Xoopar Design mobile and computer accessories, and from mass market travel accessories to smart multifunctional LuggageMate and IATA endorsed HomingPIN luggage tags, GPNG simply attract, engage and thrill the customers.
